Marked Answer : Assign

Correct Answer : Assign

✓15. Which of the following is database defect?

Marked Answer : Wrong values

Correct Answer : Wrong values

✓16. Which of the following you will test in usability Testing?

Marked Answer : Data Handling

Correct Answer : Data Handling

- ✓17. A user was just randomly exploring the website, when he clicked on Contact US- Map Link, the web page got crashed. It's the case of:

Marked Answer : High Severity and low priority

Correct Answer : High Severity and low priority

- ✓18. Effective defect report will

Marked Answer : Makes the project manager happy

Correct Answer : Makes the project manager happy

- ✓19. Important defect / Bug report fields are

Marked Answer : Test Steps, Test data, Actual Result, Expected Result, Bug ID, Severity, Test Summary

Correct Answer : Test Steps, Test data, Actual Result, Expected Result, Bug ID, Severity, Test Summary

- ✓20. What is Integration Testing?

Marked Answer : Test Level

Correct Answer : Test Level

- ✓21. \_\_\_\_\_ is not a test document?

Marked Answer : PIN

Correct Answer : PIN

- ✓22. \_\_\_\_\_ is not a test level?

Marked Answer : Functional Testing

Correct Answer : Functional Testing

- ✓23. \_\_\_\_\_ is not a STLC phase?

Marked Answer : Requirement Gathering

Correct Answer : Requirement Gathering

- ✓24. Which of the following describe exit criteria of Testing?

Marked Answer : Test Summary Report

Correct Answer : **Test Summary Report**

✓25. White Box Testing is also known as:

Marked Answer : Error guessing Testing

Correct Answer : **Error guessing Testing**

✓26. A regression test:

Marked Answer : Will help ensure unchanged areas of the software have not been affected

Correct Answer : **Will help ensure unchanged areas of the software have not been affected**

✗27. Which one of the following can be a reason for the failure: 1) Testing fault, 2) Software fault, 3) Design fault, 4) Environment Fault, 5) Fault in the

Marked Answer : 2 is a valid reason; 1,3,4 & 5 are not

Correct Answer : **All of the above are valid reasons for a failure**

✓28. Test are prioritized so that:

Marked Answer : You do the best testing in the time available

Correct Answer : **You do the best testing in the time available**

✓29. Which of the following statements about component testing is not true?

Marked Answer : Component testing does not involve regression testing

Correct Answer : **Component testing does not involve regression testing**

✓30. The purpose of requirement phase is

Marked Answer : To understand user needs

Correct Answer : **To understand user needs**

✓31. The approach/document used to make sure all the requirements are covered when writing test cases

Marked Answer : Traceability Matrix

Correct Answer : **Traceability Matrix**

✓32. Executing the same test case that failed the last time by giving the number of inputs on same build called as

Marked Answer : ReTesting

Correct Answer : **ReTesting**

✓33. To check whether we are developing the right product according to the customer requirements or not . It is a static process

Marked Answer : Verification

Correct Answer : **Verification**

✓34. A Non-Functional Software testing done to check if the user interface is easy to use and understand

Marked Answer : Usability Testing

Correct Answer : **Usability Testing**

✓35. Which is/are the Testing Levels?

Marked Answer : All the above

Correct Answer : **All the above**

✗36. Variance from product specifications is \_\_\_\_\_

Marked Answer : Validation

Correct Answer : **Defect**

✗37. Testing is:

Marked Answer : Both

Correct Answer : **Preventive Activity**

✓38. Quality Control is about:

Marked Answer : Fixing the issue

Correct Answer : **Fixing the issue**

✓39. White box testing is not called as\_\_\_\_\_

Marked Answer : Closed Box Testing

Correct Answer : **Closed Box Testing**
